

Pace of Play

Play ready golf. If you can hit your next shot without interfering with your teammates, please, hit away. If you're riding in a cart and others are walking, please go to your ball. If it's clear to hit, hit away. Drop your cart partner off and go to your ball and get ready to hit. If you need to help look for a teammate's ball, do it after you hit. If a Par 3 is backed up with two or more groups on the tee box, wave the next group up. If the Player's Assistant asks you to pick up the pace, please, be courteous and say you'll do your best. We can do all this and still have fun.
